

FLU CATCH UP CLINICS

FOR CHILDREN IN RECEPTION TO YEAR 11 And Years 12-13 In Special Schools

Remember that flu vaccination is still available for all eligible groups and is the best protection against the virus. We have seen good uptake in older age groups but vaccination among young children remains low. Flu can be very unpleasant and, in some cases, can lead to more serious illness. Getting your child vaccinated protects them and others they come into contact with, and it's still not too late.

We offer the Flu Nasal Spray and the Injectable (porcine gelatine free).

If your child has still not received their Flu Vaccination, please click onto the following link to book them into a local clinic:
